

TRUEPLEX

BAMBOOMIRACLE™ BLOWOUT

PROFESSIONAL HAIR SMOOTHING TREATMENT

A maximum strength VEGAN professional smoothing treatment enriched with tropical oils, butters and extracts that dramatically reduce frizz, reduce curl and volume, increase shine and manageability, and moisturize from the inside out for a period of 3-5 months. This amazing treatment features bamboo extract, an eco-friendly alternative for hair health that contains powerful anti-aging properties. Bamboo extract is also the richest known source of silica, an essential element for maintaining the integrity of hair.

BambooMiracle Blowout combines unique ingredients that penetrate the cuticle and fortify hair strands from within, delivering long-term results and nourishment. Contains no animal derived ingredients. VEGAN formula. Not tested on animals.

FEATURES

- Maximum amount of curl reduction possible on all hair types
- Delivers long-lasting nourishment and protection for 3-5 months
- Amazing shine and “no-frizz” smoothing for all types of hair
- Humidity protection
- Faster blow dry and finishing
- Low cost per application
- Low fumes
- Safe for color-treated hair
- No wait time, clients can shampoo same day!
- Vegan formula! No animal derived ingredients, cruelty free

KEY INGREDIENTS

BAMBOO EXTRACT

Contains powerful anti-aging properties. Sustainably harvested, making it an ecologically friendly choice for hair health.

BURITI FRUIT OIL

Essential fatty acids in this treasured oil are excellent at maintaining elasticity while retaining moisture. Soothes dry and damaged hair and fights frizz while adding shine.

MURUMURU BUTTER

Locks in moisture while softening and protecting hair. Rich in lauric, myristic and oleic acid, which penetrate the hair cuticle and fortify hair strands from the inside out.

UCUUBA BUTTER

Helps to drastically improve shine and elasticity while keeping hair hydrated longer.

ALOE VERA

Rejuvenates hair with its own nutrients, leaving strands visibly shinier and smoother.

application process

(shake well before use)

Begin with a thorough consultation with your client. Be sure that the hair is healthy enough for a smoothing service.

- 1. SHAMPOO:** Using **BAMBOOMIRACLE DETOX SHAMPOO**, Shampoo at least three times to ensure the hair is clean before starting the treatment process. Work shampoo into a lather from roots to ends of the hair, being sure not to massage or scratch the scalp. Rinse and Repeat.
- 2. TOWEL DRY:** Towel dry to remove excess water. If hair dries during application, mist hair with water to achieve a towel-dried effect. Hair should be damp, not wet.
- 3. DIVIDE:** Detangle hair with a wide tooth comb and divide damp hair into 3-4 large sections.
- 4. MEASURE SMOOTHING TREATMENT:** Determine estimated amount of treatment needed based on length/density of hair:
 - Short hair 1/2 oz
 - Medium hair 1/2 to 3/4 oz
 - Long hair 3/4 to 1 oz
- 5. APPLICATION:** Using an applicator brush, take 1/4" to 1/2" sections and begin each section by dabbing the treatment 1/4" from the scalp, then repeating every 1" to 1 and 1/2" until you reach the ends. Massage the treatment into each section, then comb through with a fine tooth comb (away from the face) to remove excess. Do not oversaturate the hair and do not apply to the scalp or skin. **DO NOT RINSE.**
- 6. BLOWOUT:** On medium heat, blow dry the hair up to 75-80% with a vent or paddle brush. For best results, finish the blowout straight and smooth with a thermal round or square brush, using tension until 100% dry using cool or medium heat. Always blow dry away from the face and away from neighboring stylists or clients.
- 7. FLAT IRONING:** Start at nape of neck and take 1/4" to 1/2" sections of hair and iron each section thoroughly from roots to ends until smooth and shiny. Adjust iron temperature between 400°F-450°F, or 204°C-230°C using the chart below and depending on the health and/or resistance of the hair. A test strand is recommended. Always iron away from the face. Continue this process until all the hair is thoroughly ironed.
- 8. RINSING:** Rinse the hair with water for 1-2 minutes. **DO NOT SHAMPOO.**
- 9. APPLY MASQUE:** Apply a generous amount of **BAMBOOMIRACLE INTENSE MOISTURE MASQUE**. Leave in 1-2 minutes. Rinse the hair with water, then towel dry.
- 10. STYLE:** Begin blow drying with fingers or for a smoother finish, use a paddle or thermal brush.

NOTE: Clients can wash, clip, style, etc. immediately after the treatment. There are no restrictions or down time.

WARNING: BAMBOOMIRACLE BLOWOUT

is NOT recommended for ages 12 and under. Do not use this product if you are nursing, pregnant or have respiratory conditions. If product contacts skin, rinse well. If it comes in contact with eyes or is ingested, contact a physician immediately. **BAMBOOMIRACLE BLOWOUT** should only be used in a professional salon and by a licensed stylist. Keep out of reach of children.

TIPS

- Every client is different. Always analyze the hair and conduct a thorough consultation with your client before performing any smoothing service.
- For maximum curl reduction, use thinner sections, a higher temperature and more passes during the ironing stage*.
- For minimum curl reduction, use less tension during the blowout and when ironing, take thicker sections, lower the iron temperature and complete less passes*.
- Use in well-ventilated areas and do not oversaturate the hair.
- When ironing, elevate each section at least 90 degree angle from the scalp to minimize flat look. For a sleeker look, do not elevate sections during ironing.

*For best results, always use iron temperature between 400°F-450°F and be sure to iron until hair is shiny and smooth.
