# SOFT WAX

## Comparison Chart

### Aloe Vera

While we may, or may not, have "borrowed" our Aloe Vera from my Grandma's windowsill... it's in your wax pot now! Aloe Vera is rich in amino acids, enzymes, and vitamins A, F, C and B12, producing strong antiseptic enzymes capable of preventing infections, acne, scarring, and many other skin conditions. It is a potent moisturizer and has anti-inflammatory cooling properties, making our NudeU Aloe Vera Soft Creme Wax an amazing choice for every client.

### Whipped Cream

So rich and creamy you'll want to put a cherry on top of it, the vitamins and rich emollients in this deluxe depilatory wax help to soften and smooth the hair shaft for an ultra-soothing wax treatment. The NudeU Whipped Cream Wax was developed for especially thick, coarse, and/or curly hair and is exceptionally effective on clients who have sensitive or dry skin in need of additional hydration.

### Lavender

Gone are the days when lavender was nothing more than grandma's secret weapon for freshening up the powder room. Lavender is a potent source of antioxidants and contains potent anti-inflammatory properties, making NudeU's Lavender Soft Creme Wax a great choice for sensitive or acne-prone skin. Perfect for the bikini and/or other difficult areas, this wax is able to remove short, previously shaved hairs, while protecting delicate skin.

### Rose Petal

A soft, creamy wax makes a dreamy Soft Crème Wax, especially when it comes to our NudeU Rose Petal Soft Creme Wax. Suitable for all skin types, our Rose Petal Soft Creme Wax has amazing skin moisturizing properties for dry, sensitive skin, and/or aging skin. Made with only the highest quality ingredients, this antioxidant-rich creme wax has a smooth, velvety texture which allows for maximum hair removal and minimal irritation on even the most sensitive skin.

### Gold Rush

It is rumored that Cleopatra herself used gold in her beauty treatments to add a "lit-from-within" glow to her skin. Infused with golden minerals, protective oils, and plant extracts, this premium soft wax is ideal for removing fine to medium hair on all parts of the body. If you want to add a little sparkle to your life, NudeU's Gold Rush Soft Wax will have your skin feeling like a million dollars!

### Honey

You've likely drizzled it on your yogurt or spooned some into your tea, but did you know that honey is wonderful spread all over your body? Our NudeU Honey Soft Creme Wax is great for softening, smoothing, and preventing breakouts while removing even the most stubborn hair. (Especially thick, coarse, and/or curly hair.)
